

COMPANY PROFILE

Petron Saudi

Industrial Company

Aramco-approved manufacturer of pressure vessels, skid packages, heat exchangers, pipe spools, tanks and structural steel — engineered and manufactured in Jubail Industrial City since 2011.

Engineering and Manufacturing Excellence Since 2011

Petron Saudi delivers engineering, fabrication and industrial services to clients across the Kingdom of Saudi Arabia. Operating five fabrication bays and two manufacturing yards, we are built to meet demanding scopes within tight delivery schedules.

Our capabilities span pressure vessels, modular skids, columns, silos, tanks, piping and structural steel — all manufactured to international codes and aligned with Aramco requirements.

Mission & Vision

OUR MISSION

Delivering Beyond Expectations — Every Time

We consistently exceed our customers' expectations in quality, delivery and cost through continuous improvement and proactive interaction — delivering innovative engineering and fabrication solutions while fostering collaboration, technical expertise and adaptability.

OUR VISION

Global Recognition. Local Roots.

To grow as an internationally recognised leader in innovative process-equipment fabrication and construction — exceeding customer expectations in quality, delivery and cost through continuous improvement, expanding our reach from Jubail to the global stage.

Our Core Values

People First

Our team is our greatest asset — we invest in their safety, growth and wellbeing.

Vision

We see opportunity where others see obstacles, driving continuous innovation.

Integrity

We do what we say. Honesty, transparency and ethical conduct are non-negotiable.

Innovation

We constantly seek better ways to engineer, fabricate and deliver.

Excellence

Good enough is never enough — from weld quality to project management.

Partnership

We build long-term relationships with clients, suppliers and communities.

The Four Pillars of QHSE

Quality, Health, Safety and Environment integrated into every project and review.

Q

Quality

QMS aligned to ISO 9001:2015 with third-party inspection, material traceability and full documentation packages.

H

Health

Occupational health monitoring, ergonomic risk assessment and medical-fitness programs for all personnel.

S

Safety

Zero-incident target via PTW systems, daily toolbox talks, LOTO procedures and incident investigation.

E

Environment

Waste minimisation, responsible chemical handling, emission controls and continuous monitoring.

End-to-End EPCM Capability

Full project delivery covering every phase from concept to commissioning.

E

Engineering

Detailed design, process engineering, structural and mechanical engineering services.

P

Procurement

Material sourcing, vendor qualification and supply-chain management.

C

Construction

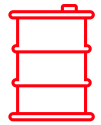

On-site assembly, installation, testing and commissioning of fabricated equipment.

M

Management

Project management, planning, scheduling and quality-assurance oversight.

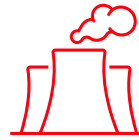

Business Sectors

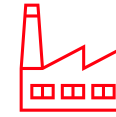

Oil & Gas

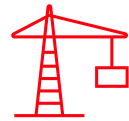

Petrochemical

Core Fabrication Capabilities

Pressure Vessels & Columns

ASME Section VIII Div. 1 — U / UM stamp, up to high-alloy and non-ferrous.

Modular Skid Packages

Chemical injection, nitrogen generation (membrane & PSA), air dryer skids.

Heat Exchangers

Shell & tube exchangers to TEMA Class R, C and B standards.

Pipe Spools

All sizes — butt-weld, flanged and fabricated in any metal.

Structural Steel

Fabrication and welding of structural steel as per codes.

Tanks & Storage

Shop-fabricated and field-erected atmospheric & low-pressure tanks.

Design & Engineering

Codes & Standards

Steel Structure

AISC / ASCE / IBC / AWS D1.1

Tank

API 620 / API 650 / UL 142

Pressure Vessels

ASME Sec. VIII Div. I & Div. 2

Piping

ASME B31.1 / 31.3

Softwares

- AutoCAD
- AutoCAD Plant 3D
- AME Tank
- PV Elite
- Nozzle Pro
- STAAD. Pro
- TEKLA
- RAM connection

World-Class Manufacturing Infrastructure

5 Fabrication Bays

Overhead cranes, cutting machines and welding equipment.

2 Manufacturing Yards

Open yards for heavy assembly, blast cleaning, painting and staging.

Advanced Equipment

CNC cutting, automated welding, radiography, PWHT furnaces, hydro-test.

QC Laboratory

NDT equipment, material testing and dedicated inspection facilities.

Logistics & Handling

Heavy-lift capability, transport coordination and export packaging.

QHSE Systems

Integrated QHSE management aligned to ARAMCO and international standards.

ASME Certifications

ASME Boiler and Pressure Vessel Code (BPVC) certificates of authorization.

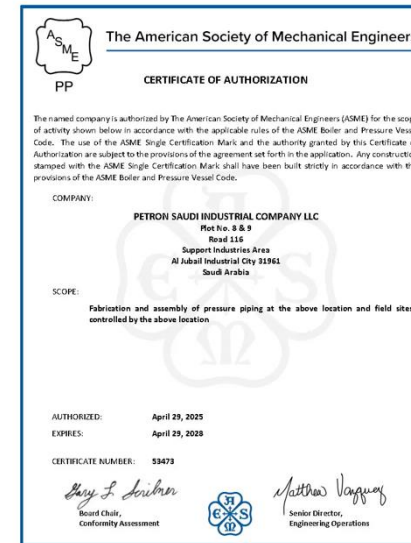

ASME S

ASME BPVC Section I — Certificate of Authorization for power boiler manufacture. (No. 53472)

ASME U2

ASME BPVC Section VIII Div. 2 — Pressure vessels under alternative rules. (No. 60122)

ASME PP

ASME B31 — Fabrication and assembly of pressure piping systems. (No. 53473)

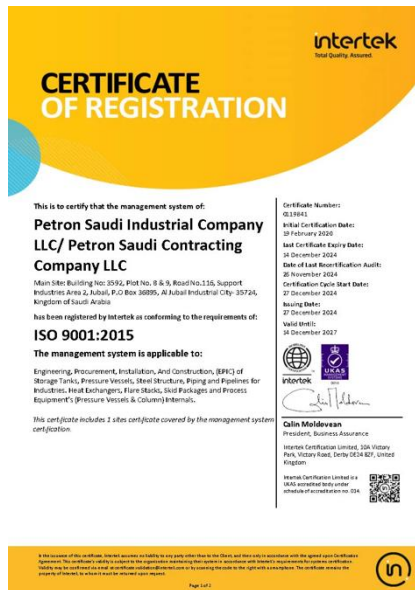

ASME U

ASME BPVC Section VIII Div. 1 — Authorization to manufacture pressure vessels. (No. 53099)

ISO Certifications

International Organization for Standardization — third-party certified management systems.

ISO 9001:2015

Quality Management System — third-party certified QMS across operations.

ISO 14001:2015

Environmental Management — Regulatory compliance and responsible resource use.

ISO 45001:2018

Occupational Health & Safety — OH&S management across all operations.

National Board

National Board of Boiler and Pressure Vessel Inspectors authorization.

NB

National Board (NBBI) — Certificate of Authorization to register pressure-retaining items. (No. 10163)

13 Aramco 9COM Approvals

Active approval across five product categories within Aramco's procurement system.

Skid Systems

5

- Chemical Injection (well & non-well tie-ins)
- Instrument Air & Compressed Air Dryer
- Nitrogen Generation — Membrane & PSA

Pressure Vessels & Columns Columns

3

- Pressure Vessel — max wall 19 mm
- Pressure Vessel — wall thickness 38 mm
- High-alloy / non-ferrous vessel

Pipe Spools

2

- All sizes — flanges, butt-weld, fittings
- Butt-weld, fabricated, any metal

Tanks & Storage

2

- Shop-fabricated tank (32-SAMSS-030)
- Field-erected ATM & low-pressure tank

Structural Steel

1

- Structural steel fabrication
